Career Objective

With a background in Applied Mathematics, I aim to pursue research in machine learning, focusing on its mathematical foundations and applications. At the same time, I plan to develop expertise in Data Analysis and apply these methods to real-world problems. I intend to pursue a Master's degree to further strengthen my research skills.

Education

Bachelor of Applied Mathematics — Sep 2022 – Feb 2026
Can Tho University, College of Natural Sciences — Can Tho, Vietnam
- GPA: **3.71/4.0** (Excellent) – English Transcript | Vietnamese Transcript
- Bachelor's Thesis: **9.7/10** – View Thesis
- English Proficiency: B2 (CEFR)

Student Exchange Program — Jun 2025
Universiti Brunei Darussalam — Darussalam, Brunei

Research Project

- Gap Safe Screening Rules for Fast Training of Robust Support Vector Machines under Feature Noise (Preprint) | View — 2026
- Regularity of Collections of Set-Valued Mappings (translated from Vietnamese, Accepted) – Student Scientific Research Project (University-level) | View — 2025
- Solving Risk-Return Tradeoff Model with Galois Connection (Preprint) | View — 2025

Achievements, Awards, and Grants

- Student Exchange Scholarship by Can Tho University — Jun 2025
- University Research Grant (Can Tho University) — 2025
- Academic Merit Scholarship (Semester-based) – Can Tho University — 2022–2023; 2024–2025

Skills

- **Machine Learning**: Python (Colab, VS Code)
- **Data Analysis**: SQL, SPSS (data cleaning, descriptive statistics, hypothesis testing)
- **Data Visualization**: Power BI
- **Time Series**: R (ARIMA, Exponential Smoothing, forecasting, model diagnostics)
- **Mathematical Computing**: MATLAB
- **Scientific Writing**: LaTeX, Typst, R Markdown

Certificates

- Winter School on Quantum Computation (VIASM & HCMUT – VNU) — Dec 2025
- "Student with 5 Good Criteria" – Can Tho University — 2024–2025
- "Student with 5 Good Criteria" – College of Natural Sciences — 2023–2024; 2024–2025
- Machine Learning: Mathematical Foundations and Practical Applications — Apr 2024
- "Green Stewardship: Preserving Biodiversity and Advancing Sustainable Development" — Jun 2025
- Future Ocean Changemakers Youth Forum — Jun 2025
